## [Summary]

In the month under review, net sales at existing stores (total) were 105.8% and those of all stores (total) were 106.1%, respectively, compared with the same month of the previous year.

Sales of late summer items in immediate demand such as blouses, knitwear and shirts were strong due to the lingering summer heat, which was more intense than usual. On the other hand, sales of autumn items were weak in the first half of the month, but gradually became vibrant in the second half of the month as temperatures dropped.

At Onward Personal Style, which offers the made-to-order brand KASHIYAMA, ongoing digital marketing initiatives contributed to an increase in the number of customers visiting stores, while price hikes implemented at the end of the previous month led to a significant growth in the average spending per customer. As a result, sales expanded substantially.

Chacott saw a sharp increase in sales, driven by a new product, pressed powder.
