(Note 3) Existing stores are defined as stores that have been newly opened or newly consolidated for 12 full months or more.

(Note 4) The above figures do not reflect point discounts, etc., and therefore may not match those in other disclosure documents.

[Summary]

In the month under review, net sales at existing stores (total) were 104.2% compared with the same month of the previous year, while net sales at all stores (total) were 107.0% year-on-year.

In the early part of the month, temperatures remained low, resulting in strong sales of winter apparel, primarily driven by sale items. From mid-month onward, sales of spring apparel such as outerwear and knitwear increased, supported by rising temperatures.

At Onward Personal Style, which operates the made-to-order brand “KASHIYAMA,” sales at existing stores grew significantly due to the effects of digital marketing. At WEGO, sales remained steady thanks to popular collaboration projects with a Korean idol group.
