FY2023 Q3 : Consolidated Financial Results Highlights ONWARD

	Net Sales	Operating Profit	Recurring Profit	Net Profit
Q3 (Sep-Nov)	51.0 bn yen (+5.7% YoY +2.7 bn yen YoY)	4.7 bn yen (+13.5% YoY +0.6 bn yen YoY)	4.6 bn yen (+14.8% YoY +0.6 bn yen YoY)	2.9 bn yen (+28.3% YoY +0.6 bn yen YoY)
Cumulative Q3 (Mar-Nov)	141.4 bn yen (+8.4% YoY +11.0 bn yen YoY)	9.7 bn yen (2.2 x YoY +5.4 bn yen YoY)	9.1 bn yen (1.9 x YoY +4.4 bn yen YoY)	5.7 bn yen (2.1 x YoY +3.0 bn yen YoY)

- In the Q3 of the year (September–November), temperatures remained higher than in usual years, which caused a drastic change to customers' purchasing behavior. Sales in key brand businesses such as Nijyusanku, UNFILO, PET PARADISE, and Chacott remained strong mainly due to the successful development of flexible product merchandising in response to such situation, and a further improvement in the operation of OMO stores that had offered the "Click & Try" service.
- In addition, operating profit margin for the Q3 of the year rose by 0.7%pt from the same period of the previous year (8.5% to 9.2%) due in large part to the achievements of global business reforms and progress in streamlining the product supply chain.
- Thanks to the above, the Company was able to increase sales and all kinds of profits in the Q3 of the year. As a result of the above, during the first nine months of the fiscal year (March to November), the Company achieved significant increases in sales and all kinds of profits.

FY2023 Full-Year : Performance Forecasts Highlights

- The full-year forecasts have remained unchanged from the latest ones for net sales, operating profit and recurring profit as the performance in first nine months has progressed as expected.
- The full-year forecast for net profit has been revised upward from the latest forecast (5.5 billion yen) to 5.9 billion yen. The reason is that because future taxable income is expected to increase resulting from the continued strong performance, tax expense will decrease due to the recording of deferred tax assets.

Dividend Policy

The Company regards the return of profits to shareholders as one of its most important management issues, and its dividend policy is to maintain the dividend payout ratio of at least 35% and to distribute profits in a stable, performance-linked, and appropriate manner.

Along with the further upward revision of the full-year forecast for net profit, the Company revised the year-end dividend forecast (scheduled for May 2024) to 18 yen per share, up 1 yen from the previous forecast (announced in October 2023).

(An increase of 6 yen from the 12 yen of FY2022)

Promote Management that is Conscious of Cost of Capital and Stock Price

■ Approach to financial policies and target financial indicators

- Aim to realize returns (profits) in excess of the cost of capital for sustainable improvement of corporate value
- Set targets such as for return on equity (ROE), keeping in mind the cost of shareholders' equity and weighted average cost of capital (WACC).
- Demonstrate specific measures (e.g., cash allocation) to achieve the targets

We plan to disclose the above information together with the updated version of “ONWARD VISION 2030” and the three-year mid-term management plan, when the full-year financial results for FY2023 are released in April 2024.

The logo features the word "ONWARD" in a bold, blue, serif font. Two horizontal yellow bars cross through the word, one passing through the 'O' and the other through the 'A'.
